## Market Report by Paul Need

Dear all, I trust you had a good festive season and business was excellent. Market conditions look like they are going to settle for Q1 but looking forward into Q2 I see quite a bit of milk which will put pressure on pricing. As always not a lot to report this month only to say a stable market for Q1, we will be monitoring the market very closely to make sure we achieve best possible pricing going forward.

I would like to thank you all for your continued support and would like to wish you a Happy Healthy and Prosperous 2018.
